CAGE 3CX55
Founded 2002
HQ Granite City, IL

COMPANY OVERVIEW

SIS is a self-performing general contractor for federal construction, civil works and mechanical systems. Founded in 2002 as an industrial supplier, SIS combines its own mechanical, civil, carpentry and masonry crews with an in-house procurement desk, and has delivered projects for the U.S. Army Corps of Engineers, GSA, USDA, the National Park Service and DoD installations across the Midwest.

CORE COMPETENCIES

- Design-build and general contracting for federal agencies
- Flood-control pump stations, PL 84-99 levee repairs and riprap
- Mechanical, HVAC, plumbing and process piping
- Natural gas conversions, utilities and directional boring
- Water and wastewater treatment plants
- Civil and site work, paving, retaining walls and erosion control
- Masonry and building envelope, including historic buildings
- Materials procurement with Buy American documentation

DIFFERENTIATORS

- Self-performs core trades, supporting limitations-on-subcontracting compliance
- Prime contractor on USACE civil works of about $17 million
- Design-build from permitting through commissioning and operator training
- Proven on remote sites and occupied, historic federal buildings
- USACE three-phase QC and EM 385-1-1 safety experience
